Proposal Overview

A solar inverter is a crucial component of a solar energy system, responsible for converting the direct current (DC) electricity generated by solar panels into alternating current (AC) electricity, which can be used to power your home or business.

solar inverters play an essential role in solar energy systems, converting generated DC electricity into usable AC power while enhancing efficiency and system performance. Investing in a reliable solar inverter ensures you maximize your solar energy benefits.

Technical Specifications

Item	Make	Specification
Solar PV Panels	Adani/Premier	BIFACIAL PERC DCR 540Wp
Inverter	KSolare/Growatt	String Inverter
Structure	MS/HDGI	Elevated Mounting
DC Cable	Polycab	4mm Tinned Cu UV Protected
MC4 Connectors	Staubli	1000V/1500V

Commercial Offer

Base Cost	₹ 3,50,000
GST @ 13.8%	₹ 48,300
Total (Incl. GST)	₹ 3,98,300
Government Subsidy	₹ 78,000
Net Investment	₹ 3,20,300

Warranty

- Solar Panels: 12 Years Product, 25-30 Years Performance
- Inverter: 8-10 Years
- Structure: 5 Years
- Balance of System: 5 Years
