## Proposal Overview

Solar LED lights are energy-efficient lighting solutions that harness solar energy to illuminate outdoor spaces. Ideal for gardens, pathways, and security, these lights provide reliable illumination without the need for electrical wiring.

Solar LED lights offer a sustainable and cost-effective lighting solution for outdoor areas, enhancing safety and aesthetics while promoting energy efficiency.

## Technical Specifications

| Item            | Make            | Specification              |
|-----------------|-----------------|----------------------------|
| Solar PV Panels | Adani/Premier   | BIFACIAL PERC DCR 540Wp    |
| Inverter        | KSolare/Growatt | String Inverter            |
| Structure       | MS/HDGI         | Elevated Mounting          |
| DC Cable        | Polycab         | 4mm Tinned Cu UV Protected |
| MC4 Connectors  | Staubli         | 1000V/1500V                |

## Commercial Offer

|                          |                   |
|--------------------------|-------------------|
| Base Cost                | ₹ 3,50,000        |
| GST @ 13.8%              | ₹ 48,300          |
| <b>Total (Incl. GST)</b> | <b>₹ 3,98,300</b> |
| Government Subsidy       | ₹ 78,000          |
| <b>Net Investment</b>    | <b>₹ 3,20,300</b> |

## Warranty

- Solar Panels: 12 Years Product, 25-30 Years Performance
- Inverter: 8-10 Years
- Structure: 5 Years
- Balance of System: 5 Years
