Proposal Overview

A Solar Water Heating System uses solar energy to heat water for residential or commercial use. This eco-friendly solution harnesses sunlight, providing a sustainable and cost-effective way to meet your hot water needs.

Investing in a Solar Water Heating System is a smart choice for those looking to harness renewable energy for their hot water needs. Enjoy the benefits of lower energy costs, reduced environmental impact, and reliable hot water with this sustainable solution.

Technical Specifications

Item	Make	Specification
Solar PV Panels	Adani/Premier	BIFACIAL PERC DCR 540Wp
Inverter	KSolare/Growatt	String Inverter
Structure	MS/HDGI	Elevated Mounting
DC Cable	Polycab	4mm Tinned Cu UV Protected
MC4 Connectors	Staubli	1000V/1500V

Commercial Offer

Base Cost	₹ 3,50,000
GST @ 13.8%	₹ 48,300
Total (Incl. GST)	₹ 3,98,300
Government Subsidy	₹ 78,000
Net Investment	₹ 3,20,300

Warranty

- Solar Panels: 12 Years Product, 25-30 Years Performance
- Inverter: 8-10 Years
- Structure: 5 Years
- Balance of System: 5 Years
